## This certificate tells you whether this vehicle has been given the 'all clear' by HPI after a comprehensive search on the following registers:

### VIN Match

Compares the Vehicle Registration Mark (VRM) against the Vehicle Identification Number (VIN), where your dealer has provided both, to detect a 'ringer', ie a stolen vehicle with a false identity.

### Vehicle Identity

Does the vehicle match the description recorded at DVLA? Details of all road registered vehicles are recorded at HPI and the HPI Check reflects information recorded on the vehicle's official V5 document.

### First Registration

HPI confirms the vehicle's first date of registration with the DVLA in order to help establish the true value of the vehicle.

### Outstanding Finance

Two thirds of new cars are bought using finance agreements, making them the property of the finance company until clearance of the debt. HPI has over 11 million records on this register, against which this vehicle has been searched to highlight any outstanding debt.

### Condition Alert

Has a car been 'written-off' by an insurance company following major damage or theft? The HPI check searches over 11 million records to make sure the vehicle is not a total loss.

### Condition Inspected

HPI has a unique register of former 'write-offs' which have passed a stringent Thatcham approved inspection to confirm the integrity of the repairs.

### Stolen Vehicles

Any vehicle currently reported to the police as stolen or missing is highlighted in the search.

### Security Watch

Some vehicles such as hire cars, are at special risk from fraud or theft. This register checks for vehicles that are flagged as 'at risk' and being offered for sale without the owner's consent.

### Plate Transfer

Plate transfers are perfectly legal, but can be used to cover a dubious past. An HPI Check will automatically pinpoint all plate transfers since April 1990 and make sure that none of the prior identities have anything to hide.

### Mileage

The National Mileage Register (NMR), with over 82 million readings, can help reveal discrepancies in a vehicle's mileage history.

*HPI Checks are not transferable. The results shown above, for the VRM or VIN provided, were believed correct on the date and time they were supplied to the HPI subscriber whose name appears above.
